

Standard Features Include:

- ✓ E-RAM Sealing Technology, designed specifically to give maximum seal force with minimum maintenance and superior reliability / life-span
- ✓ Environmentally Friendly ALL ELECTRIC machine designed to reduce energy consumption
- ✓ MAX-PACK system that preempts tray anomalies prior to transfer
- ✓ Remote viewing and technical support via wireless modem link
- ✓ FREE direct software upgrades upon release
- ✓ User customizable RFID security access
- ✓ Recipe driven automatic machine set up
- ✓ Process control monitoring
- ✓ Category 3 Safety System
- ✓ Up to 18 Cycles per minute with seal only applications
- ✓ Gas Flushing ready (cycles depending on product)
- √ 1-7 Impression Tooling with optional colour coding
- ✓ Simplistic manual tool change
- ✓ Self Centering tray guides and exterior transition plates
- ✓ Tray size check to stop machine for incorrect tray orientation
- ✓ Film snap detection system
- ✓ Active film torque system
- ✓ Intuative and customizable HMI design
- ✓ Swing Arm Control allows operation from both sides
- ✓ Tray crush avoidance system with advanced design specifications
- ✓ Quick release, modular conveyor system for cleaning and maintenance
- ✓ Ancillary Equipment Integration (Coders, Printers, Depositors, Vision Systems etc.)
- ✓ Phase monitoring protection to prevent surge damage to electrical components

Optional Features Include:

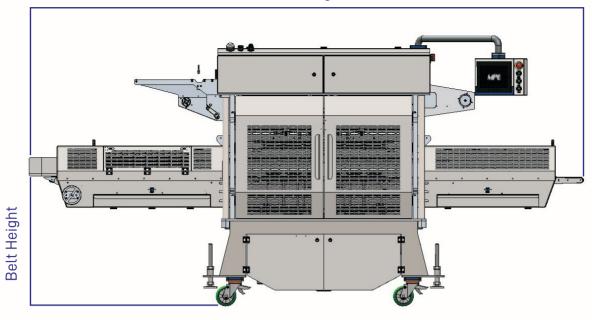

- Registered film Arrangement
- ✓ High Oxygen (High 02) gas flush for applications such as red meat
- ✓ Inboard trim and Close cut film tooling options
- ✓ Modular tooling option
- ✓ Extended infeed and conveyors
- ✓ Integration to existing production monitoring software
- ✓ Pass through conveyor solution
- ✓ Adjustable multi-height transfer arms
- ✓ Lift or slide transfer arms to allow running multi height trays of the same format simultaneously

SEALING CAPACITIES & THROUGHPUT CALCULATOR

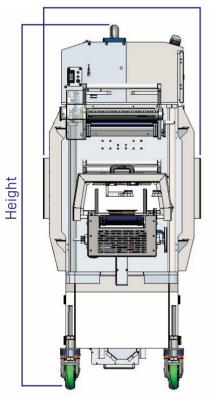

Achievable number of Packs Per Minute PPM by application type

# of Trays or Impressions per Cycle	Maximum tray dimension per impression number Maximum tray height is 105mm across all formats	Seal ONL Y	Gas Flush 12 CPM
1	270mm (W) x 963mm (L) 270mm (Ø)	18	12
