MPE

Commercial tray sealing solutions

www.mpe-uk.com

The **MPE TT800** is a semi-automatic tray-sealing machine with a sliding base mounted on a frame for portability. It has double the capacity of the TT600. Designed to seal a wide range of cardboard packaging producing the same quality seal as machines higher up in the range. Ideal for short production runs and product development.

Standard Features Include:

- ✓ Flexible tooling packages
- ✓ High seal force
- ✓ Simple operator controls
- ✓ Semi automatic operation
- ✓ Up to 6 Cycles/min standard seal
- ✓ Food industry approved construction
- ✓ MADE IN UK

Optional Features Include:

- ✓ Adjustable size tooling
- ✓ Silent air compressor
- ✓ Combination Tool

Sealing Capacity

Cardboard packaging	No. of packs	Length	Packs/minute
